

DAY 77- 1 - ASSIGNMENT

The screenshot shows a Windows desktop environment. In the background, the Microsoft Azure portal is open in a web browser at portal.azure.com/#home. The browser's address bar shows the URL, and the page content includes a 'Quickstart Center' and a 'More services' link. In the foreground, a Command Prompt window is open, displaying the following text:

```

Create a resource group

Basics Tags Review + create

Resource group - A container that holds related resources for an Azure solution. The resource group can include all the resources for the solution, or only those resources that you want to manage as a group. You decide how you want to allocate resources to resource groups based on what makes the most sense for your organization. [Learn more](#)
